 ETF performance calculation including reinvested dividends.
Past performance is not a reliable indicator of future results.
 ETF performance calculation includes reinvested dividends. Index performance calculated on a total return basis.

Key Risks

- The Fund is not guaranteed and your investment is at risk. The value of your investment may go down as well as up.
- The value of an investment in shares will depend on a number of factors including, but not limited to, market and economic conditions, sector, geographical region and political events.
- The Fund is exposed to market movements in a single country or region which may be adversely affected by political or economic developments, government action or natural events that do not affect a fund investing in broader markets.

Key Risk Factors

Investments in funds involve numerous risks including, among others, general market risks, credit risks, foreign exchange risks, interest rate risks and liquidity risks. As such, the value of an investment in an Xtrackers ETF may go down as well as up and can result in losses, up and including a total loss of the amount initially invested.

Movements in exchange rates can impact the value of your investment. If the currency of your country of residence is different from the currency in which the underlying investments of the fund are made, the value of your investment may increase or decrease subject to movements in exchange rates.
